Motor Insurance Database

It is a legal requirement that details and registrations of the vehicles you own are added to the MID which is managed by the Motor Insurers' Bureau (MIB). MID data may be used by certain statutory and/or authorised bodies including the police, the DVLA, the DVANI, the Insurance Fraud Bureau and other bodies permitted by law, for electronic vehicle licensing, Continuous Insurance Enforcement, preventing and detecting crime, reducing the incidence of uninsured driving and for the provision of government and other services aimed at reducing the level and incidence of uninsured driving.

Other insurers and the Motor Insurers' Bureau may search the MID to ascertain relevant policy information if you have been involved in a road accident whether in the United Kingdom or abroad. Other people pursuing a claim in respect of a road traffic accident, their personal or appointed representatives, whether within the United Kingdom or overseas may also obtain relevant information which is held on the MID.
